August 12, 2004

Parents:

It is an honor to be your son or daughter's teacher. I have taught at Nogales High School since the 1984-85 school year; I loved working with the kids of this wonderful town.

My wife Elizabeth also a teacher at NHS, we have three kids in Nogales Schools.

I am writing you to encourage communication with you so that together, we can ensure your son or daughter's success in my U.S. Government or U.S. History class.

There are many ways in which we may communicate throughout the year. First, I encourage you to visit with me at school. Please call and make arrangements. You may also call me at school any day between 2:30 and 3:15, or leave a message and I'll get back to you.

I would very much like to include you in my class email tree. I will send an email to interested parents about class projects, assignment and events. We may also use email to arrange an individual meeting about your son or daughter's progress.

An effective means in which you may find out what is going on in class and my daily lesson plans is to visit my class web page at [teachweb.org](http://www.teachweb.org), once there follow the "Parents" link on the left top of the page.

I strongly encourage you to be active in your son or daughter's class work and to become a teaching partner with me. By staying informed of class events and assignments and by arranging personal meeting with me, we can personalize your child's achievement in the class.

We will work hard on the Senior Project in the government classes. I will help my students every step of the way and expect that they do their best work. I will hold regular required meetings and will hold numerous study and preparation sessions. I hope to ensure that the Senior Project is one of the greatest challenges faced by your son or daughter in school and that we will show them what success in life is all about through the senior project.

I hope you will communicate with me on a regular basis at the phone at 377-2021 x2051 or email at [gthomson@nUSD.k12.az.us](mailto:gthomson@nUSD.k12.az.us).

Thank you for letting me teach your kids.

I promise to work hard for your kids, to challenge them and to give them the support they need to get the work done, on their own.

I never forget that each one of their lives is a treasure.

Sincerely,

George Thomson
