Government is not allowed to interfere with a person's freedom of belief. Our proposed policy (does/does not) violate this limit on the power of government.

Our project/policy does not violate the community freedom to believe we will be informing voters on how the government runs and on what people can do to make changes, so that our community can grow to be a better place for us and our future families

Government is not allowed to place unreasonable and unfair limits on a person's right to express him or herself in speech, writing, or by other means. Our proposed policy (does/does not) violate this limit on the power of government.

People will be informed properly about their government and constitution. People have rights that are being violated and they don't even know that they have that right. In some cases some peoples are taken an advantage of and again they don't even realize it. Our project doesn't have anything to do with the right to express themselves.

Government is not allowed to take a person's life, liberty or property without giving that person a fair hearing in a court of law or before another authorized agency of government. Our proposed policy (does/does not) violate this limit on the power of government.

Our policy is meant to help the life of the community people get better, we will not get involved with the person's life, liberty or property.

Government is not allowed to invade the privacy of a person's home without a very good reason for doing so. Our proposed policy (does/does not) violate this limit on the power of government.

People will be informed not forced or taken an advantage of. We will be in public places trying to get people informed on what is going on.

Government is not allowed to make laws that unreasonably or unfairly discriminate against people on the basis of race, religion, age, ethnic group (national origin), or gender. Our proposed policy (does/does not) violate this limit on the power of government.

Our project is to inform all of the community. The race, religion, age, ethnic group (national origin), or gender will not matter for any reason.

Summary Statement

Write a summary statement in which you support your belief that your class's proposed public policy does not violate your federal and state constitution

Here at NHS we take two years of history (one of World History and another of Arizona History) and one year of the U.S. Government. In our government class we learn everything we need to know about our government (from the time it was started and how it was started to what it is now). We learn about the Federalist Papers the Bill of Rights and the U.S. and Arizona Constitution. We are taught our legal rights what makes a good government nothing is forced on us, we are not forced to believe in anything we don't want to, the same thing should be done with students/citizens of Mexican.
